# BLUSEAL
## ELASTOMERIC SEALANT

**Premium Quality Destiny PAINT**

**CODE NUMBER**

DP-706

**DESCRIPTION**

This is a water-based elastomeric sealant for sealing cracks and leaks on concrete walls and floors, leaks on G.I. Sheet and Masonry Tile roofs, on concrete and G.I Sheet gutters, flashings, downspouts, nailholes and plumbing leaks. It is environment-friendly and does not contain any harmful components. It is very easy to apply, by putty knife or even brush. It is weatherproof and does not become brittle, chalk or crack upon exposure to sunlight. It may be painted over. It only needs to be applied in thin coats. It is a handy item to have on hand in every home, shop, factory, warehouse, etc. in anticipation of leaks that may occur, particularly during rainy season. It will adhere well to G.I. sheet or pipe, PVC, wood and masonry. Lead free, lacquer free and especially formulated for clean environment.

**COLOR**

Gray in 4 kilogram, 1 kilogram, 500 gram and 250 gram plastic container.
Red, green, blue, beige, gray and white in 100 gram sachet.

**FINISH/ SHEEN**

Flat.

**SURFACES TO BE PAINTED, SUBSTRATES**

Concrete, ceramic and other masonry. G.I sheets and other metals. PVC and other plastics. Wood. Surfaces are preferred dry. However, it may be applied on wet surfaces provided there is no flow of water or no sprinkling or dropping or pouring of rain or tap water, during application and during drying. There should also be water pressure such as pressure coming from a pipe even after the sealant is dry.

**THINNER/ REDUCER**
